21: Febmary 4

Sir;

Yours of the 16th instant enclosing a 5 dollar gold piece which was broken by one of the Government officials is received. It is the most remarkable piece of coin that has ever come under my knowledge, - that is, it presents conditions, the causes of which it is difficult to explain.

The pieces sent here are found on test to be very malleable; that is, the piece can be doubled up without producing a fracture. The Crystallization seems only to be at the points where the fracture took place. My theory is that in annealing, the piece was covered by another to a

points where the fracture occurred: that oxidation took place producing crystalization which rendered it very easy to make the fracture. That is only a theory but it is the best I can offer.

The piece is genuine, and as I said before is fully as malleable as that of any coin with which we have compared it

6: March 4

Sir;

In compliance with the request contained in your letter of the 12th Feb'y I have had the 5 cent Coins contained therein carefully analized, and find them to be Standard Nickel-Copper.

Before the assay took place I examined the Coins personally and pronounced them genuine, and I had no doubt they were.

The brittleness is unusual and is no doubt occasioned by overheating of the metal whilst in the melting pots or subsequently in the fillets or strips in the annealing furnaces. I

SUPERINTENDENT'S OFFICE,

7: March 1884

Sir;

In reply to your letter of yesterday inquiring how the amount entered as the statement of earnings and expenditures as Seignorage on Standard Silver dollars for the fiscal year, ended June 30: 1879, was arrived at, I have to say that it was obtained by multiplying the weight of Silver Coined during the year, namely, 10.419.628 $\frac{13}{100}$ ounces by $1.031, as the average cost of bullion purchased for the year, making $10.742.637 $\frac{32}{100}$, and giving $1.382.032 $\frac{60}{100}$, as the gross approximate Seignorage for the year.

On recalculating this average

cer, I find it is about 4 mills per ounce low and should be $1.035+. The Seignorage entered on the quarterly statements and to which you refer, were, on the suggestion of your predecessor only roughly estimated to expedite the statements.

SUPERINTENDENT'S OFFICE,

13: March 1884

Sir:

In reply to your letter of the 10th inst., I beg to say that the coin contained therein is counterfeit.

I should like to have the opportunity of having it assayed and to do this I shall have to cut it.

If my view as to its character is correct, it is one of the most dangerous counterfeits I have come across for a long time;

Very respectfully

Sir:

I have to acknowledge the receipt of your letter of the 18th inst. ordering one gold and six silver Life Saving Medals and Cases.

The work of striking the gold medal has been commenced and will be completed at as early a day as possible.

In regard to the silver medals, I would respectfully refer you to the letter of the Secretary of the Treasury of June 22nd. 1882, in relation to certain changes in the design, in which it is suggested that "a sample of each medal be made from soft metal and if

(a)

submitted for my inspection."

In response to that letter, under date of July 26th 1883, a soft metal impression of the mounting of the silver medal was submitted for your approval, since which time - so far as the mounting is concerned - we have had no reply.

In answer to the letter received from your office on Jan: 15th 1884, stating, that "the object of the inquiry" in the Secretary's letter of the 10th inst., was to ascertain if the alterations of the silver medals had been made to the same size as the gold medal, and the lettering thereon made to conform

to the lettering on the gold", and requesting a soft metal impression to be sent you ,- I wrote you on the 17th. of the same month, informing you that the changes which you had directed had been made, and at the same time forwarded to you a soft metal impression by registered mail.

As your approval has not yet been received, I now desire to ask whether the impression is satisfactory in order that the Engraver may proceed to harden the dies and the work be pressed forward to

completion.

It will be necessary that you should return the designs, as the jeweler will be unable to perform his portion of the work without them

Sir;

I have had the Counterfeit 25- submitted in the letter from your office under date of March 10th carefully analyzed with the following results. Fineness in gold 790; .038 silver, .153 copper and .011 parts platinum. The latter metal served to bring up the weight without much increasing the size.

This is one of the most dangerous counterfeits that has ever come under my observation. It has evidently been struck from a die prepared by the deep process - the most dangerous of all

4

processes in the hands of Counterfeiters. Its weight was but 3/10th of a grain light which allowing ~~[illegible]~~ for the abrasion was within the limits: its thickness was however greater than that of the genuine coin. It stained slightly with acid. The specific gravity was 16; it should have been 17.20.

The expert who detected this coin in the general work of your office, is entitled to credit for his skill.

I enclose you the value of the coin $4.43 and beg to remain

Respectfully yours

March 28th 11

Sir.

I received this morning notice of Transfer Order for the transfer of one thousand gold dollars to the Assistant Treasurer in this city.

I hold this order until I hear from you after a presentation of the facts.

There has been a great pressure from this and other cities upon me for gold dollars, to be used in jewelry. As the Mint is now working overtime, it has seemed to me improper to waste the public funds in the coinage of gold dollars to be used as ornaments, and for the profit of certain individuals engaged in trade, and I have therefore declined to issue any number, only striking sufficient to meet our requirements in the pay-

ment of gold warrants. As I presume the request for transfer from the Assistant Treasurer in this city is intended to meet such cases, I write to suggest the propriety of declining to transfer any gold dollars from this Mint to the Assistant Treasurer, under the circumstances.

Having declined to pay for gold deposits with gold dollars, it would embarrass me to have the Assistant Treasurer in this city pay them out to perhaps the same persons whom I had refused, from a sense of duty to the Government. I do not think it is a part of the Governments' duty to issue coin except for circulation.

Nearly all orders for these coins are intended, as I before said, to meet the demands of

1. April 4

Sir;

In compliance with the request contained in your letter of the 29th ult. I have filled the order for 1000 gold dollars for the assistant Treasurer in this City, this day.

I do this at your request although it is a little against the grain as I have no doubt that the very bank that Mr Eyster proposes to oblige, I have refused.

It places me in rather an embarrassing position, nevertheless under the circumstances I yield my personal

Sir;

I have to acknowledge your favor of this date complaining that the number of men employed in your department is insufficient to perform the work required of you, and that you are necessitated to take men from the General Department to perform this work, which you pronounce unsatisfactory.

I recognise the justice of the claim you make as we have frequently talked on the subject together.

I had hoped that by this dove-tailing in the force of the General Department and in your Department, I might economise

(a)

in the matter of labor, but by observation I notice that several men on the General Roll are in constant use in your department.

I therefore accede to the suggestion you make and will appoint a number of men to complete your force upon your recommendation.

I think it would be well to make the transfer from the present General force of such as have had experience in working in your department, and fill up the General force by the appointment of new men. It would seem to be not only to the

(c)

advantage of the Government but as a just recognition of the fidelity of those men who have been working in the several positions, as a transfer to your Department is looked upon and is a promotion in point of Compensation and the general character of the work

Sir;

In reply to your letter of April 3rd. in relation to Steel, and also to the Hill Reducing Machine, - received from the Mess. Wyon of the Royal Mint, London, I beg to say that we have long been familiar here with the plan by which the reducing machine could be altered and made to do precisely what is now recommended by the Mess. Wyon. In fact our old reducing machine possesses all that is now claimed for the alterations and improvements suggested.

The Machinist in charge of the Hill Machine has put many improvements

processes employed on our own Steel, gave us dies that ran respectively 6 and 7 hours; whilst the dies for the same Coinage made from American Steel ran from 3 to 5 days. It would therefore seem not to the advantage of the Government to purchase any of the Steel forwarded.

The delay occasioned in answering your letter, has been by reason of the desire to give a fair and full test to the Steel.

I return herewith the papers of Mess. Wyon, and am

on it since it was received here, by which he is enabled to increase a diminish the reliefs on medals, reproduce models and also increase a diminish their size: in fact, to accomplish all that is claimed as improvements, and much more. I therefore think it unnecessary for the Government to go to the expense indicated by the Messrs Wyon.

As to the steel forwarded, I can only say that dies produced from American steel gave better results than dies produced from the steel forwarded. A test of 5 cent nickel dies made from the new steel under the same conditions, and

Sir;

Mr. L.R. Cowperthwait Chief Clerk asks for leave of absence for 3 weeks on account of ill-health. Under the circumstances it is necessary that I should provide for my own possible absence for a day or more from the Mint and as the law does not have the elasticity it should have, which would enable me to designate some one to assume temporarily the duties belonging to the Chief Clerk, I must make the only provision possible which is to nominate and appoint a Chief Clerk to act in the place of the absent one.

The arrangement for the present must be considered as temporary.

SUPERINTENDENT'S OFFICE.

31. May 1884

Sir;

I am in receipt of your letter, in which you say that the matter of issuing minor Coins from this Mint is under advisement in the Treasury Department.

In reply I beg to request delay in deciding the matter until I can have a conversation with you on the subject. In this connection I beg to direct your attention to the fact that the proposed advertisement for Copper was published, without any authority that I know of in the U.S. Government Advertiser of May 21st. This skeleton advertisement which gave no dates for the receipt of proposals or other necessary information reached Pope Cole & Co who wrote to know where

Mint of the United States at Philadelphia, Pa.

SUPERINTENDENT'S OFFICE,

, 18

the bids were to be opened &c. If the paper at Washington could be cautioned not to publish advertisements in Skelton, and not at all until they are authorized to be issued it would be perhaps a good thing, and save me some annoyance.

It may be well while considering this subject to inform you that the last purchase of Copper which was made under bids received from Pope, Cole & Co and Nathan Trotter & Co.: that the Copper purchased from the latter firm which was at very small fraction of a cent below that of Pope, Cole & Co, was found to contain a trace of sulphur and some other deleterious substances which rendered the gold very brittle, and has occasioned some loss of the precious metal and the reworking

Mint of the United States at Philadelphia, Pa.,
SUPERINTENDENT'S OFFICE,

of a large quantity. The loss to the Government through the character of this Copper was a thousand fold more than any difference in the price between the bids of the two firms named

This is another illustration which I have frequently had occasion to give you of the injurious effects resulting from the requirements of the law which makes it necessary for an officer to decline the purchase of a material which he knows to be absolutely suited to the use of the Mint and to select another at a very little difference in the Cost, the use of which may entail a large expense, trouble, and inconvenience

Very respectfully

Sir

I am in receipt of your letter of the 7th inst transmitting forms, and authority to advertise "Proposals for Supplies" for the ensuing fiscal year

I take the liberty of enclosing as a substitute, a form of advertisement used by the Mint for several years past, that I believe is better suited to our purposes, much shorter and therefore less expensive to advertise

I stipulate that proposals shall be accompanied by a responsible bond when they are sent in This protects the Mint against straw bidders who would otherwise give much trouble and annoyance as our

experience teaches, without any corresponding benefit.

The list of articles is the same as in the form you send, except Mitts, which are omitted as they are made in the Mints. I also desire that crucibles shall be omitted, for the reason that it is settled, after long trial and comparative tests, that Taylor's are the only crucibles that are thoroughly safe and reliable in our Mining operations and there is nothing to be gained by inviting competition under such circumstances. This subject has been thoroughly discussed heretofore, my last suggestions, under date of June 30th 1882, having been promptly approved by the Director.

I will have the form copied here, for the papers named, if approved by you.

In reply to your letter of the 13th inst., reporting an alleged discrepancy of 2 ℔ in my bullion accounts for the quarter ending Dec: 31: 1883, I beg to say that the following Certificates of Deposit are embraced in the amount $2734.68, Parting & Refining Charges, deposited in the Treasury during that Quarter, namely:-

1883		
Oct. 5.	C/D 5818	$835.36
Nov. 8	" 5841	975.89
Dec. 7	" 5860	903.43
		$2734.68

The duplicate C/D of Decem. 7th 1883,

No. 5880, calls for $903.43, not 45 ¢ as stated in your letter and as it appears in the press copy of my letter of transmittal of Dec. 7. 1883, although the figures are a little blurred. Reference however to the original Certificate, will I presume show you that "43", is the correct figure

Sir;

I am surprised at the information contained in your letter of the 17th inst., that a Standard dollar Coined at this Mint, was found to be 2.01 grains below the legal limit of tolerance in weight.

Would it be possible for you to send the Coin here for examination?

My impression is that it was cut from the point of a strip, and by carelessness on the part of some adjuster was passed on.

Sir

In reply to your letter of the 16th inst., in regard to certain silver purchases, I have to state that the dates of the reports forwarded from this Mint of silver purchases made by the Director are only those of the day on which they are mailed, and not the date of deliveries, these reports being made only after the last delivery on a sale has been assayed and paid for.

Handy & Cronise made all the deliveries on account of their sale of 200.000 ozs. on March 13th 1884 [not February 13th 1884, as stated in your letter]

during the month of March 1884; namely 172.493.95 ounces, and none in April, although they were all reported on the 4th April. 1884.

Messrs. Handy & Ronnie having failed to complete the deliveries within the limit of 10 days, no more was received on account of that sale, because of instructions to that effect from the Director of the Mint, dated April 3. 1884, to which you are respectfully referred.

A statement of the deliveries and payments under that sale is herewith enclosed.

S. July 4

Sir;

In compliance with the provisions of Section 3709 and 3710 of Revised Statutes and in Compliance also with the terms of the advertisements published in 4 of the daily papers of this City, bids for supplying this Mint for the fiscal year ending June 30th 1885, were opened at this Institution at 12 O'clock noon on the 26th day of [illegible] ult., in the presence of all the operative officers.

I herewith enclose schedule of the same and submit it for your approval with the following explanations and Comments.

Metals.

For Iron, Copper, Lead, and Zinc, the only proposals received were from James S. Watson & Son to whom the contract is awarded for these articles, the prices for them which being satisfactory

Steam Generating Coal

For Steam Generating Coal 6 proposals were received. That of Branson & Bro at $4 bx per ton being the lowest, is accepted and the contract awarded to them.

Council Ridge Coal

The bid of George B. Newton & Co for Council

Ridge Coal at $5.20 per ton, being the only bid received, and the price being satisfactory, is accepted and the Contract awarded to them.

Charcoal

The proposal of John R. Conrad for charcoal being the only one received is accepted at the prices specified in the schedule, and the award given to him.

Brushes

For brushes, but one bid was received from R. Oakford Kelley & Son, and is accepted at the prices stated, and the

(9)

award made to them accordingly.

Acids

Three proposals were received for Nitric Acid, Aqua fortis, Oil of Vitriol, and Muriatic Acid, namely from Harrison, Bro. & Co., Charles Lennig & Co. & United, and from Savage and Morell. The proposal of Harrison Bro. & C, being the lowest for the 4 articles named, is accepted and the award made to them.

Fused Borax

For Fused Borax the proposal of

Savage & Storell at 65 ¢ per lb. is accepted, and the award made to them at that price, because after long experience it is found that it is the only article that is suitable for our uses.

Borax

For Refined Borax at 9 7/8 ¢ a pound and Soda-Ash 58° at 2 1/16 ¢ a pound the Contract is awarded to Charles Lennig & Co. Limited.

For Double Refined Borax at 23 ¢ a lb. the award is made to Harold R. Lewis & Co

(7)

Lumber

Two proposals were received for lumber from Thomas Williams Jr. & Co and the other from Elias Pohl. After a careful comparison of these two proposals by the Experts of the Mint in connection with the quality of the respective articles required for our use, the bids of Thomas Williams Jr. & Co. is the lowest and best and I therefore award the Contract to them.

Buckskin Gloves & Mitts

For Buckskin Gloves & Mitts but one proposal was received namely Mrs

Mary L. Ashford and the contract is awarded to her at the prices specified.

Oils and Lubricators

In Oils and Lubricators the Contract is awarded to Harold R. Lewis Co. at the respective prices stated, they being the only bidders.

Fire Brick & Clay

In Fire Brick and Clay two proposals were received: one from H. R. Vandusen and another from Bergen and O'Brien. That of Vandusen being the lowest the award is made to them.

7

Hardware

The Contract for Hardware is awarded to James S. Watson & Son at the prices specified, they being the only bidders.

Soap

For Borax Soap at 10¢ a lb. the award is made to Gustav A. Borax who has been in the habit of supplying us for several years and makes the only Borax Soap that is satisfactory to the Corps.

For the Remaining Soaps the award is made to Harold R. Lewis & Co., at the prices specified, because they are the

Mint of the United States at Philadelphia
SUPERINTENDENT'S OFFICE

articles which we have been in the habit of using, we know what the quality is, and can rely upon these. I know nothing of the quality of the soaps offered by Charles McKeown & Son, most of them are of a kind we have never used, and for soaps for which we did not advertise

Wood

The Contract for Oak and Pine Wood is awarded to the Estate of F.D. Watson, at the prices specified in the Schedule that being the only proposal received.

9

Mint of the United States at Philadelphia, Pa.
SUPERINTENDENT'S OFFICE,

Rubber Belting & Ice

The proposal of ~~D.P. Dietrick~~ for ~~Belting~~, and of the Knickerbocker Ice C. for Ice, ~~are~~ is also accepted, and the award made to ~~them~~ that Company ~~respectively~~ they being the only bidders

Sir;

I write for information to know whether a party selling, say, from $ to 10,000 ounces of silver to the Mint here could not receive a draft on the Assistant Treasurer at New York, similar to the ones issued in payment of silver bullion purchased at the Treasury Department?

I make this inquiry for a party who has written desiring to sell a large amount of Mexican Dollars and wishes to know whether he can get a draft on New York

Sir;

In reply to your letter of the 10th inst. in reference to the proposals for acids, I have the honor to state that Nitric Acid, Aqua Fortis, Oil of Vitriol, and Muriatic Acid, are 4 stable articles of kindred character and use in the Mint, that the bid of Harrison, Bro. & Co. for Muriatic acid at $1.00, is, standing by itself, higher than the other 2 bids at $1.25, but taking the aggregate of the bids for all 4 acids, that of Harrison Bro. & Co. is the lowest to

Harrison Bro. & Co.	11.00
Charles Lewing & Co. Limited	11.[illegible]
Savage & Powell	12.[illegible]

You will thus see that the aggregate proposal of Harrison, Bros, (and Co.) is the lowest of the 3, and the award was accordingly made to them as stated in my letter of transmission.
